

Watershed Health. Your Vision. Our Future.

Watershed Planning

The goal of watershed planning is to achieve healthy natural systems that positively respond to changes such as growth, new infrastructure and climate change. Watershed plans provide a framework to guide our decisions and actions to protect, restore and enhance a watershed's natural resources to achieve healthy and resilient communities.

In 2018, the Central Lake Ontario Conservation Authority (CLOCA) is updating our watershed plans. These updates will provide recommendations and tools to help mitigate pressing issues. We want to celebrate our past successes as well as set new objectives and targets. We are seeking input from watershed stakeholders like yourself to help update our watershed plans.

Watershed Health

Did you know...A watershed is an area of land that is drained by a river or creek and its tributaries into a body of water like Lake Ontario? Achieving healthy and resilient watersheds is a vital component in the environmental, economic, social, and cultural success of a community.

We Are All Connected

CLOCA works hard to manage watershed health across 627 square kilometres of land, encompassing seven municipalities within the Region of Durham. By working together, we can achieve a balance between human activities and watershed health now and for future generations.

Your Vision. Our Future.

We want to hear from you. Topics in the watershed plan review include

- Achieving Sustainable Water Resources
- Documenting Changes in the Natural Environment
- Balancing Urban Development & Watershed Health
- Assessing Climate Change Risks & Hazards
- Identifying New Directions to Manage our Watersheds

Join us to share your vision and shape our future at one of the scheduled PICs or complete our online survey available at www.cloca.ca.

Public Information Centres (PICs)

Whitney Hall @ Iroquois Park Sports Centre
500 Victoria St. W.

Let's talk about Lynde & Oshawa Creek Watersheds

October 25, 6:30- 8:00pm
and
October 27, 9:30- 11:00am

The Great Room @ Clarington Public Library, Courtice Branch
2950 Courtice Road

Time to chat about Bowmanville/Soper & Black/Farewell/Harmony Creek Watersheds

November 8, 6:00- 7:30pm
and
November 10, 1:00- 2:30pm
